The Hazy Math of Figuring Out Marijuana Dosage. Many patients prefer to smoke or vape cannabis either for the flavor or for the entourage effect from getting all the cannabinoids and terpenes in the plant. Unfortunately, it can be difficult to calculate the exact amount of THC when using the inhaled route of administration. Whereas vape concentrates often show the percentage of THC, it can be ...

The answer is an infusion at = 20 mL/hr. 2. Give 40 milligrams (mg) of Lasix® (furosemide) IVP. The vial of Lasix® contains 100 mg per 10 mL. In the example,

Dose → mL, Dose → mL/hr

Directions. Enter weight to be converted at top of calculator. Select the radio button to convert into kilograms or pounds . Press the "convert" button.

converting kilograms and pounds - manuel's web

Body Surface Area is the most accurate way to calculate meds and it is usually used when prescribing chemotherapy. We are going to focus on mg/kg dosing here because it's most common. You may see other units like grams or units but the math you need to be able to do will be the same just with different units! Often drug guides will give a range for what is considered safe. So you may see ...

My blood pressure — with a combination of diet, supplements, and BP meds — has steadily come down. I am now at the place where I am evaluating how to safely get off the BP meds. I am taking Lisinoprin, 20mg, 2x a day, and Amlodipine Besylate, 5mg once a day. Those dosages are considerably lower than I was taking. I'm doing what I can see to keep the dialog and research going, and I see ...

It could be argued that low math, and especially science scores are BECAUSE of our country's refusal to adopt the metric standard. If metric units were part of our day-to-day life, it would be more natural for young scientists to study in a field that uses those units. Instead, they are saddled with learning a "new" system of measurement along with learning the subject material, which ...

Medicine and the Metric System | More Than A Mile Behind ...

I have lost count of the sleep meds that worked for a while until I developed a tolerance. I have walked a tightrope between meds that don't help at all and those that make me sleep all day. My current solution is a combination of temazepam to help me fall asleep and Seroquel to help me stay asleep. It's the result of a lot of trial and error, and it is regulating my sleep better than anything ...
